

Github

WHAT IT IS?

GitHub is a web-based platform used for version control and collaboration

What is Github for?

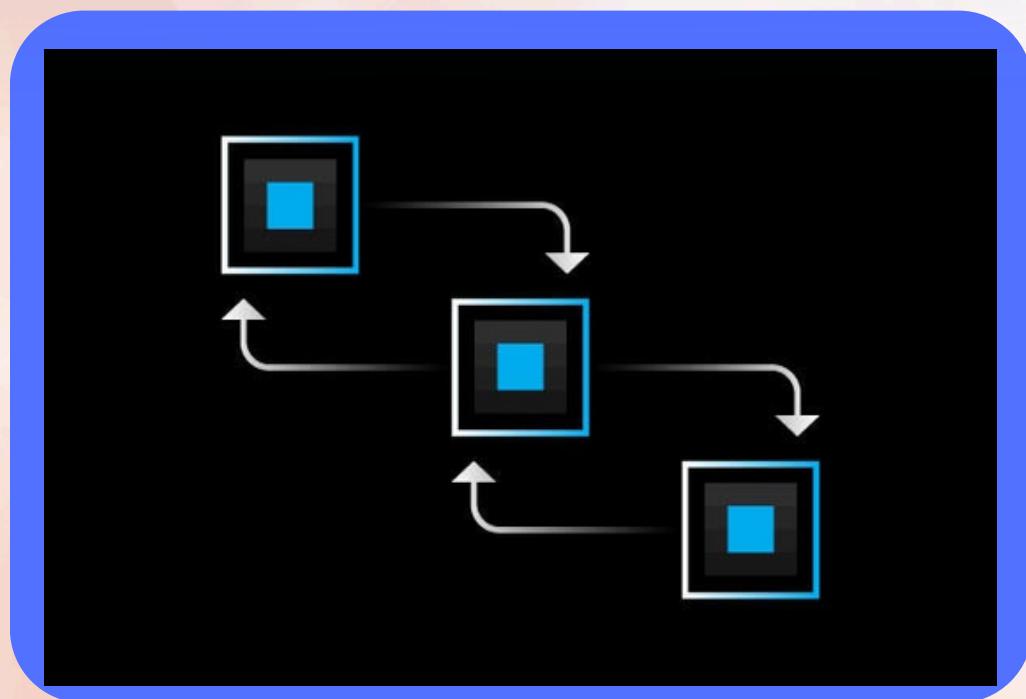

**Platform for version control,
collaboration, and hosting
software projects.**

THE HISTORY OF GITHUB

2008

WAS FOUNDED BY: TOM PRESTON-WERNER

LEADER IN COLLABORATION AND VERSION CONTROL FOR
DEVELOPERS.

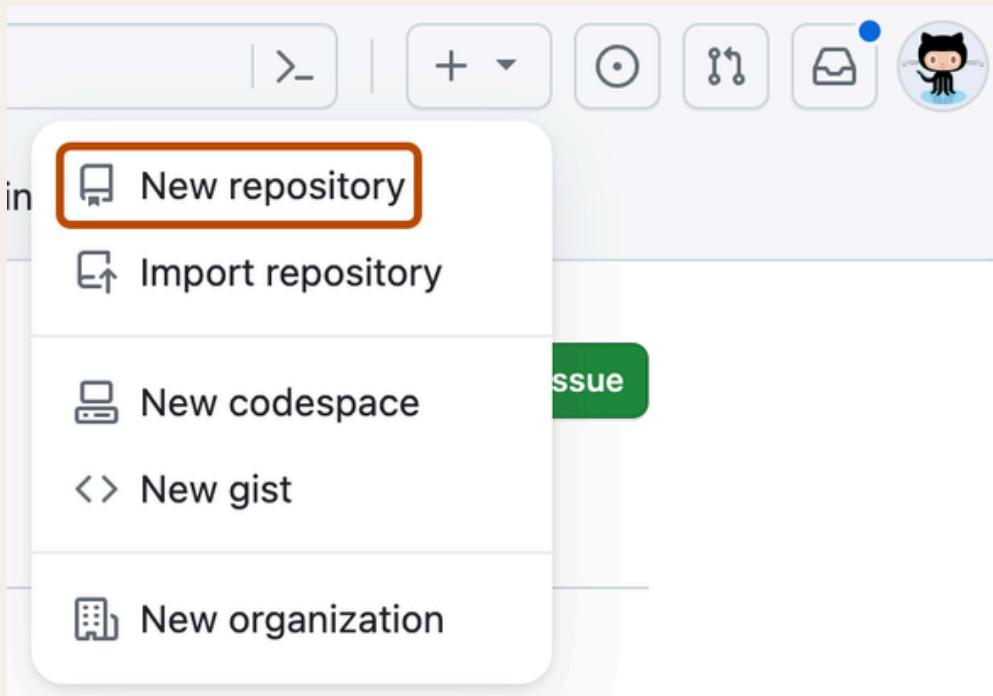

How GitHub works

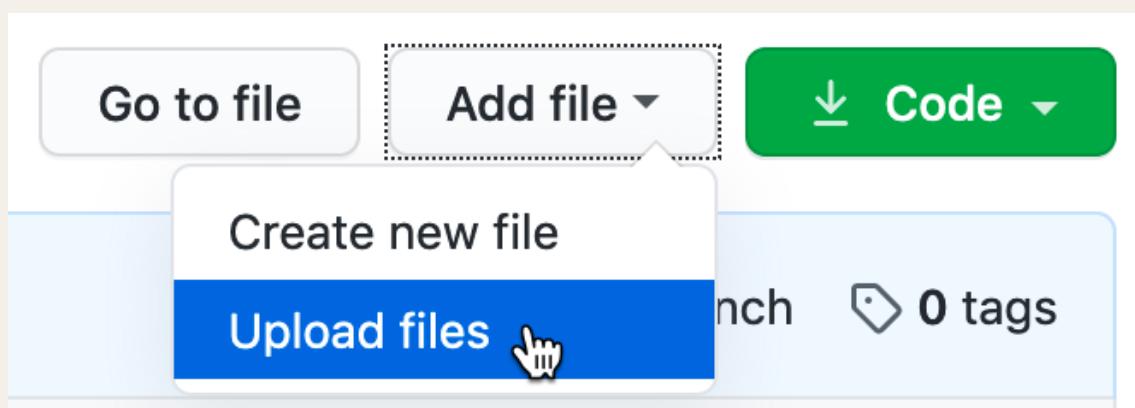

Developers collaborate by storing, sharing, and managing code repositories.

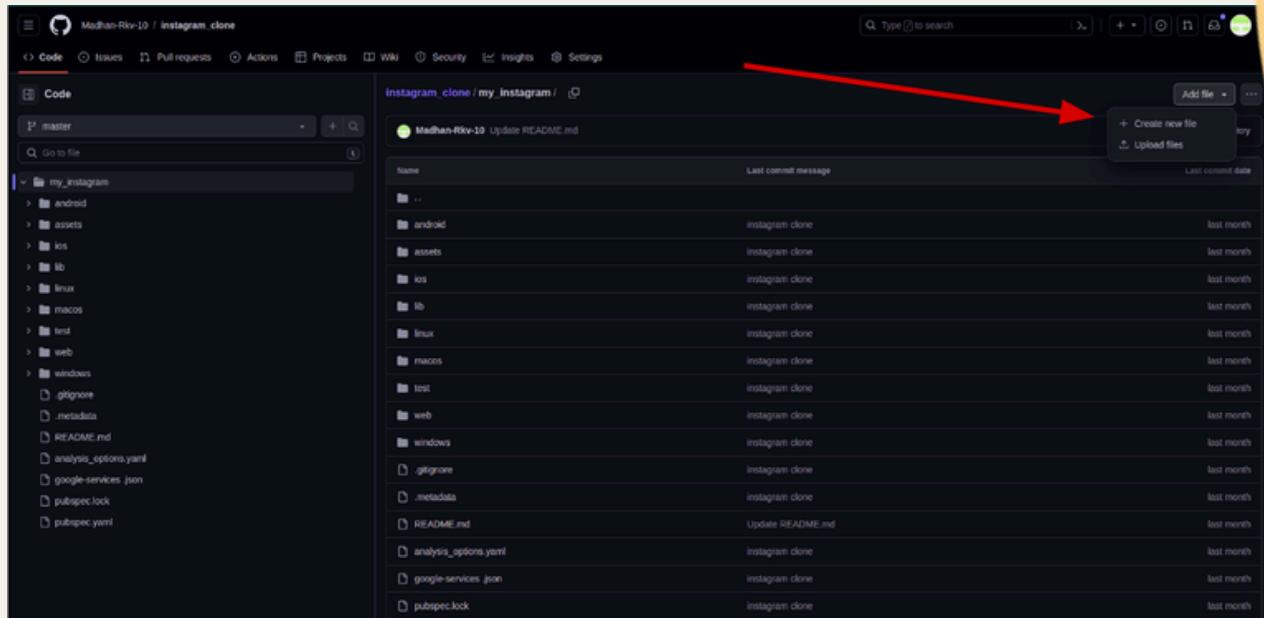

HOW TO CREATE A REPOSITORY

Select "Add file ", then "Upload files ". Drag files or click to select them.

How to upload a file in your repository

Navigate to the main page of the repository. Select the Add file dropdown menu and click Upload files.
